nokē contact
no key. no problem.
BY JANUS INTERNATIONAL

ON DOOR. CONTACT CHARGED. THE **SMARTEST**, HARDWIRED **SMART** LOCKING SOLUTION YET.

Introducing, Nokē Contact

Nokē Contact is a hardwired smart lock that fits directly onto the unit door with the industry's most innovative, yet simplified design. This smart locking solution is low voltage powered, comes equipped with a rechargeable battery backup, and has a constant LED indicator. Nokē Contact can be easily factory installed, meaning the smart latches can cut down on installation time by 40%, allowing owners and operators to open their doors and start renting premium units faster than ever.

Integrating new technology into your smart facility has never been easier

Designed for self-storage owners and operators who are looking for a quick and easy way to install industry-leading smart locks at their facilities, Nokē Contact maximizes site security, improves the tenant experience, allows for remote visibility, and makes contactless rentals easier than ever before.

OPERATIONAL BENEFITS AT A GLANCE

» **Constant (low voltage) power and rechargeable battery back-up**

» **On-door, 4-bolt design makes installation quick, easy and cost efficient**

» Cloud native software portal gives visibility into lock health, facility security, and customer behavior

» Customer-friendly mobile app for ease of access and peace of mind for tenants

» Robust manager mobile app makes operating the facility easier than ever

» Automatic overlocking system (and release)

» **Operators have reported 80%+ fewer break-in claims on smart units vs. traditional**

» Backwards compatible (can be installed at any current smart entry facility)

» **24/7/365 live support**

CUSTOMER BENEFITS AT A GLANCE

» Mobile app entry (maximizes convenience & control)

» No keys to forget (eliminates lock cutting/drilling)

» Digital key sharing (secure, traceable, and revocable at any time)

» Fully automated rentals

» Tenant-driven onboarding (eliminates tenant/unit obstacles)

» One-touch entry
